Noile Pros Entered in the The Children's Store Case of Jack Laurence.

Jack B. Laurence, 8429 Drexel avenue, was arrested June 26 after he had been accused of annoying little girls. He was booked on the conventional complaint. His case was set for trial yesterday before Municipal Judge

witnesses against him were there prepared to tell their stories.

Judge Schulman, just before the trial started, announced that the city had nonsuited the case. There would be no trial—despite the fact that the complaining witnesses wanted the man brought to book. Why?

Can Re-Arrest Him.

Judge Schulman said: "I was informed by the deputy city prosecutor—I believe his name is Walkere—that the city wanted to nonsuit. I did not know what the facts were. If the police do not think justice was done they can have the man arrested again."

"What for—to have him turned loose again?" commented Capt. McMahon, when he heard this phase. "I'll do better than that."

And so last night a full report of the case was resting on the desk of Chiaf of Police Fitzmorris, who will take it up this morning.

TLAT TREAD

Guaranteed for 10,000 Miles by Manufacturer and by Us--a Double Assurance of Quality

This is a Tire that was unknown in Chicago prior to this Spring. We took over the exclusive distribution after an exhaustive study of the Tire manufacturing situation—large and small.

We chose the Superior Cord because it is as fine in material, workmanship and appearance as any tire made and yet the prices are radically lower than on other standard make Tires of the same fine quality. The quantity we have sold attests to its extraordinary merit. Note the Flat Tread that distributes the wear evenly over the entire surface. Consider the quality, then inspect these prices. Goodrich announces new tire prices

-lowest cost mileage ever known

Effective July 20th, Goodrich establishes a revised price list that is a base line of tire value.

It gives the motorist the buying advantage of knowing that whatever size tire he selects is of the same quality—the Goodrich one-quality standard.

It gives him the longest mileage, the most satisfactory service and the highest quality his money can buy. Results will prove that it is impossible to buy tire mileage at lower cost.

SENATE LOWERS TARIFF DUTIES ON COTTON ARTICLES

(BY A STAFF CORRESPONDENT.)

Washingon, D. C., July 19.—[Special.]—Further reductions in duties on cotton manufactures from the original McCumber bill rates were made voluntarily by the senate finance committee today and approved by the senate.

The duty on cotton clothing not specially provided for was made 35 per cent instead of 45 per cent as in the McCumber bill as reported from the committee. The house rate was 33 per cent, American valuation. The duty on collars and cuffs was reduced from 25 cents pier dozen pieces plus 16 per cent.

The finance committee also pro-

With the solid support of agricultural senators, the finance committee obtained the approval of a duty of 2 cents per pound on hemp, which is on the free list in the Underwood act. The house rate was only three-fourths of 1 cent per pound. Democratic senators presented many protests against this duty, which is designed to encourage the growing of hemp in the United States. Senator La Follette [Wis.] is credited with having been responsible for the high duty recommended by the finance committee.

BAVARIA ENVOY LEAVES BERLIN: TALK OF BREAK

[Chiese Tribuse Foreign News Service.]
BERLIN, July 19.—A Munich correspondent telegraphs that the situation is most serious there on account of the Bavarian opposition to national law. The Bavarian minister to Berlin has returned to Munich. Throughout the country there is intense revival of separation talk. Government officials want a national referendum. On the other hand, workingmen are planning a general strike against the government should the Bavarian opposition to national law reach the point of a break.

Postpone Date of Aero Meet; Time Too Short

Following stormy session of the Chicago aeronautical bureau it was announced yesterday that the "world's greatest aviation meet," scheduled for Grant park, Aug. 4-13, has been postponed. The meet will be held early in the fall, according to C. S. Rieman, president of the bureau and Mayor Thompson's official aviation booster.

SOX-BOSTON SCORE

The skill of Gorham Leverett continues to dazzle the enemy. Today the big right hander stood the somewhat useless Red Sox on their respective domes and meanwhile the high stepping Gleason gang blasted a path to victory in the first of the series. The count was 8 to 0 and was sufficiently lopsided to afford about 2,500 local fans ample opportunity to razz the Hugh Duffy entry.

Leverett really was a whole show in himself. Not only did he huri so effectively that the red hosed athletes could get only two men as far as third base, but he cut considerable swath in Chicago's offense. He topped all his clouting companions with two doubles and a brace of singles. Two of these hits drove in three runs and the husky right hander crossed the plate once himself.

STOPS BROWNS other hit rounded out the inning's total of five jucy tallies. One more run was added in the fifth and two in the

Yacht and Canoe club of Peoria and Lincoln Park Boat club meet in one of the features of THE TRIBUNE'S first annual water carnival in the Lincoln park lagoon on Sunday afternoon is shown by the difficulty Commodore R. H. Daniels is having in selecting a four to meet the local crew.

"We are having a tough time selecting the right junior four," Commodore Daniels wrote yesterday. "We have two of them. They are so closely matched that no one can tell which is the better. Sometimes one will pull out a few inches ahead in their trials and sometimes it will be the other. Both crews won races during the regatta here July 5 to 5.

motifs appear on snowy backgrounds.
Today we show a very effective summer wrap of black chiffon brocaded in gold and finished with a collar of Russian sable. The lining is a very light weight gold tissue cloth. Incidentally, one must repeat again the passion for the matching evening wrap. Thus, with a chiffon frock of smerald green or raspberry—both of ap. Thus, with a chinus are all green or raspherry—both of ese tints are much seen at the fash-nable resort—one assumes a cape of atching velvet or self material colared with either costly fur or ostrich. The latter, by the way, is an idea borrowed from Paris, where it has gained a tremendous ascendancy.

BY EDWARD MOORE. "Faust," with Claire Dux as Marguerite, drew the pilgrims to Ravinia last night in rather large numbers. She generally manages to be interesting n her rôles and she was in this, playing it with an air of wide-eyed wonder at what this great world may be, as the girls sing it in "The Mikado," still with the further air of being not entire. with the further air of being not entirely surprised at subsequent events.

Seldom or never was there an act of opera that so nearly played itself, nusically speaking, as the garden scene in "Faust." It is fairly ideal as a love scene, and it gives the partici-pants a chance to sing the best notes they possess. So Miss Dux sang just about as well as she did in her lieder recital at Orchestra hall last February, thus representing her two best schleve-ments to date; Orville Harrold, the Faust of the occasion, blended a rapter of Mr. and Mrs. James T. Carney

There was also an excellent char-acter sketch by Philine Falco as Dame Martha, and Anna Roselle sang the

Large Audience at Cubs' Park Concert

Last night at Cubs' park a large and enthusiastic audience listened to the second of a series of six concerts being given under the auspices of Ramah lodge, Independent Order of B'nai B'rith, for the benefit of lodge chari-

Brith, for the benefit of lodge charities.

Jessie Christian, soprano, and Charles Marshall, tenor, Chicago Grand Opera fame, offered an unusual program, accompanied and supplemented by a 100 piece orchestra under the direction of Eric De Lamarter. Judge Hugo Pam and Judge Harry M. Fisher have agreed to head a committee to issue an appeal for patrons and guarantors. To date 312,000 has been realized for charity by the concerts.

LESS than seven years ago the circulation of The American Magazine was 350,000 copies at fifteen cents a copy.

Today the circulation of The American Magazine is 1,800,000 copies at twenty-five cents a copy. This is the largest circulation, at this price, ever attained by any magazine.

Yet the reason for it is very simple.

A few of us are interested in fiction or articles, but we are all of us interested in life. Lincoln read few books after he became of age, but he never wearied of meeting people.

In our smaller way we are like him. We buy The American Magazine because it is life—people.

We say to ourselves as we read it: "Why, I knew a man just like that. He was just an ordinary man, too." But it pleases us to see that an ordinary man can overcome extraordinary obstacles.

As Emerson says, it "encourages and liberates us."

We like to be encouraged—liberated. It is a great thing to lay down a publication with the feeling that you are a bit different than you were when you picked it up—that you have discovered something about yourself that will make it possible for you to use yourself more effectively.

That is the secret of The American Magazine. It is the reason why 1,800,000 men and women buy it every month.

If it were merely "literature," 1,800,000 copies at twenty-five cents a copy would be an incredible circulation. But who can measure the possible circulation of a magazine that is life?

farian, the trading company's bookkeeper at Katleean, captivated by the charm ean, makes the trip with the expedition to the island. He intends to return on to Katleean after the Boreland party has been landed, but through an accident pes back without him. Kilbuck has prejudiced the Borelands against young anding him a squaw man, and his presence worries Ellen. Gregg, sensing mism, makes every effort to win the older woman's friendship and approval,

The party has only a six weeks' supply of food, as Kilbuck had promised to bring the sale back to the island within that time with the winter supplies. Ellen has reason et the White Chief of treachery, and now that the Hoonah is overdue, she is almost ir. A small quantity of gold is found in the sands on the beach.

e days passed. They were growing noticeably shorter now and prowere getting low. The trail up the steep hillside behind the cabin hardened by the feet of the watchers alert for the hourly expected of the Hoonah. At the top, which they all had come to call the Lookout, hour of the day found some one of the party anxiously scanning the toward Katleean. Many cannery steamers and whalers on their way were sighted, but all gave the island a wide berth. The hundred reefs Ken Klayu had no lure for sailors of the North Pacific.

Boreland, who never failed to patrol the beach daily, found one more ch of ruby sand, which the three men rocked out. He weighed the gold nor the clean-up.

To Ellen Boreland these were days of anguished conjecture, of harassed n. As they passed with no sign of the Hoonah she began to recall last week at Katleean. On the screen of her mind appeared over and again the White Chief's dark face, in her ears the voice of memory re sted his softly spoken, enigmatic words: "Remember-you'll want me. e pigeon loose, comes back; I will understand."

The Hoonah was overdue. Was this then what he had meant? Was he now ng the schooner, believing that in her anxiety for the safety of her loved she would release the bird? Was he trying to force her, at such a cost, buy from him the lives of those dear to her? Had he planned this thing n the beginning? Was he even now at the post, waiting, certain that ntually she must release the pigeon? The picture unnerved her to the oint of panic.

Ellen tried to reassure herself. No man, however cruel and pittless, could ident David Kinley, University of Illierately plan so monstrous a thing. She tried to find excuses for the nonarrival of the Hoonah. Perhaps the fall steamer had not come in on time. Perhaps some accident had happened and the White Chief was having the dent of the Morgan Park Militray acadkkeeper, for whose safety Silvertip must account.

RESIGNATION OF BITHER ACCEPTED BY SCHOOL BOARD

Some Innovations.

Unanimous acceptance of the resignation of William S. Bither, the board's attorney, who is under indictment for conspiracy to defraud in connection with school real estate transactions, was one of the most important actions of the board of education yesterday at its first meeting under the new president, Dr. John Dill Robertson.

Appointment of new standing com-mittees and announcement of a new innovatation introduced by Dr. Rubertson, were other high lights of the meet-ing.

But that is all changed. The courtesan of the all-night cabaret has become the wedded wife. The former mistress of the sun-rise rendezvous wears a wedding ring, and has a framed marriage certificate. Architecturally, the place is the same as when it was Friberg's, save for about a million dollars' worth of crepe paper, paint, velvet cushions, thick drapes and multi-colored lights.

But architecture doesn't make morals, in buildings or ladies.

"For you are right, and I am right, and everything is right as right can be," seems now to be the motio of the new order of things, and while it is not a Chautauqua meeting, still the "vice" is frequently fastidious, often to the point of carrying a Wilmette commutation ticket in its rather shabby vest pocket.

The Later the Faster.

The Midnight Frolic runs ir four shows. The first, at 11:30, is almost a rehearsal. The 12:30 is for the nervously playful who are roguish—with reservations. The 1:30 show is for the old ones who are easing up, and the new ones who are easing into night life.

But the 2:30 show comes at that witching time of night when the edges are rubbed off, and yet it is not too late for the hip liquor fans to tell the difference between a sentimental ballad all about stars, white doves, and baby's aboe, and that more understandable selection stating that "You'll find them in the Tenderloin."

The entertainment seems almost upplift after a clossup of the mirrors paneling the wall, against which the tables are placed.

NEWS OF THE CROPS

NEWS OF THE CROPS

Crops generally are making good progress, although the government weekly weather report says there is a continued lack of moisture, which is harmful in western states, where many crops are suffering badly. Thrashing was interrupted by rains in the middle west and southwest, with damage to grain in shock. Spring wheat needs rain in the western section of the northwestern states, but in central and castern portions the condition is fairly good except in a few coutnies.

Condition in Minnesots is uneven. In North Dakota damage to wheat, barley, and rye resulted from halistorms. Moisture is needed in parts of South Dakota. Some spring wheat there is ripe. Corn is improved in most sections, although rain is needed in parts of the couthwest, while the Ohio valley had good rains. Miscellaneous crops and cotton conditions were generally favorable.

Corn is tasseling in Illinois, Indiana, and throughout the central west. Iowa has had good rains and windstorms did some damage of small grains. Corn condition is good, with good and grains. Corn condition is good, with good a mall grains. Corn condition for corn, the crop estinning to tassel. Late oats have improved. Logan & Bryan's crop reporter wires from tott, N. Public Utilities Are Public Necessities

Everyone realises the truth of the above state Water always has been a prime necessity. Gas is used extensively for industrial and domestic heating. Electricity in the home, and for running street cars and eleva-

These services are used in good times or bad. They are essential to our life today, and give public utilities a high degree of stability. It is one of the features which make them attractive to investors.

Utility companies have no large inventories to write off when prices decline. They are benefiting from the lower price levels which prevail today. The business is conducted on a cash basis. Their bonds are deservedly popular, which is resulting in a constantly increasing number of security holders.

We shall be glad to send you our list of high grade bonds or mail you a report on any public utility in which you may be interested.

Ronds are a Buy-Now!

The steady decrease in yields from Government issues is only one of the indications of lower yields which are to be 'expected for all classes of bonds.

Commodity prices have decreased more rapidly than bond yields-and this points to still lower yields in the near future. We recommend the following issues for conservative investment.

Empire Gas & Fuel Co. 7.65%

First and Refg. Convertible 15 Year 74% Gold Bonds Due 1937. Denominations: \$100, \$500, \$1,000.

These bonds are secured by a first mortgage on part of the properties, and upon retirement of certain issues maturing shortly, will be a first mortgage on the entire property of the Company. Valuation \$190,000,000; bonds outstanding \$57,183,500. Earnings over 4 times bond interest. Convertible into 8% Preferred Stock of the Company. To yield 7.65%.

Public Service Co. of Northern Illinois First Lien and Refunding 54% Gold Bonds 6.00%

Due 1962. Denominations: \$100, \$500, \$1,000.

This well-known, local issue is secured by a direct mortgage lien on all the property of the Company and by a first mortgage lien on the proposed plant of the Waukegan Generating Co. The Company is earning over two times all interest charges on funded debt and has paid dividends for many years on common and preferred stocks, which have a present market value of over \$21,000,000. At 921/2 and interest these bonds yield about 6%.

Lake Superior District Power Co.
First Mortgage and Refunding 64% Gold Bonds
Due 1942. Denominations: \$100, \$500, \$1,000.

The Company supplies 21 communities in Northern Wisconsin and Upper Michigan with an aggregate population of 55,300; an exceptionally rich field for electric light and power development. This issue of bonds has been authorized by the Wisconsin Railroad Commission and the Michigan Public Utilities Commission, and is secured by a direct mortgage lien on all the property of the Company and by a first mortgage lien on the Big Falls Hydro-Electric Plant. The value of the physicial property is largely in excess of total bonded indebtedness. At 94.75 and interest the bonds yield 7%.

Province of New Brunswick 17 Year 51/2 Gold Bonds (Non-Callable) Due 1939. Denomination \$1000.

A direct obligation of the Province and payable, principal and interest, from its general revenue. Financial Statement of the Province shows net funded debt of only \$16,819,244. Population 390,000, area 27,985 square miles. To yield 5.25%.

CONFIDENCE of the public in the operated utilities of Standard Gas & Electric Company is reflected in the large and growing number of shareholders residing in the cities and towns supplied with

As the result of operation of the custom ownership plan, approximately 30,000 resident shareholders are now actively interested in the welfare of the operated properties. Industrial and municipal life and growth require utility services in ever-increasing quantities. The Standard-operated properties supply modern service to 578 thriving cities and towns diversified among 16 states of the Middle West, West and South. The management has been successfully identified with their prosperity for many years.

To meet the urgent electrical demands of 2,250,000 people, the hydro and steam power plant capacities of the operated utilities are now being increased approximately one-third—to a total of 450,000 horsepower.

WANTED-MALE HELP,

The new machine, switching telephone program, now affords an opportunity to single men whose education or experience has taught them sufficient electrical fundamentals to absorb a training to become testers on this apparatus. Advancement depends on you and your application to our problems, College men of E. E. or M. E. courses desired. Technical high school graduates also have opportunity if your experience has trained you along testing lines. Equivalent experience qualifies you to assume educational standards. Call or write.
